SOVENTIX GMBH

PRESS RELEASE / POSTING

Soventix Chile SpA, together with SI Solar Investments GmbH and Pabettin GmbH as consortium, signed a contract with the German cooperation agency GIZ

Wesel, January 20, 2023: Soventix Chile SpA together with SI Solar Investments GmbH and Pabettin GmbH as consortium, signed a contract with the German cooperation agency GIZ. The objective is to realize the public-private cooperation project (PPP) "SolarNH3-Pool Chile: Optimized green ammonia production pool in Antofagasta for export", which is part of the "H2Uppp International Program", implemented in Chile by GIZ Renewable Energy Program.

Currently, green ammonia is the hydrogen derivative that offers the best opportunities in Chilean export markets due to its energy and logistic advantages. On the other hand, the Antofagasta region aims to position itself as one of the main development centers for the production and export of green hydrogen and its derivatives, taking advantage of the enormous potential for renewable energy production.
